

Lesson 04: How to make a wire spiral

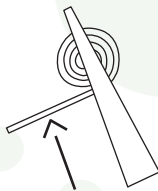

Materials:
Wire

Tools:
Wire cutters
Round nose pliers
Chain nose pliers

- 1 Make a single loop on a wire. (See lesson 01).
- 3 Now finish the spiral making with a loop in the end, cut off any excess wire and straighten the piece, if needed. ★

- 2 Using chain nose pliers hold the loop and bend the wire around the loop with your thumb. Keep moving the chain nose pliers and bend the wire until you have the desired spiral.

Designer's Tip!

Wire spirals are easy to make and then can be added into any jewellery. Add 1 jump ring to the loop and attach it to a chain as a pendant or a charm, let your imagination flow!
