

Lesson 05: Using calottes to finish a necklace or bracelet.

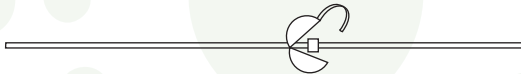

Materials:
Wire/ cord
Crimp beads
Calottes

Tools:
Wire cutters
Flat or Chain nose pliers

- 1 Insert a crimp bead onto your cord/wire and flatten it with your crimping pliers.
- 3 Gently close the calotte with your flat or chain nose pliers until it is completely shut. ★

- 2 String the calotte onto the cord/wire until the crimp bead is in the middle of the calotte. Cut the wire next to the crimp so that no parts will stick out.

Designer's Tip!

To complete the necklace or bracelet attach a jump ring to the loop calotte and attach the clasp to it. Insert a calotte and jump ring on the other end of the necklace or bracelet as an attachment for the clasp.
